

STEVE BICKO OKUMU

Telephone no: +254 702 896 370 Email: stevebickookumu@gmail.com

Bio Data	Gender: Male Languages: English, Kiswahili Date of Birth: 04/08/2005 Nationality: Kenyan
Personal Profile	A dedicated and passionate student currently pursuing a Bachelor of Science in Information Systems at the junior level. Deeply interested in Artificial Intelligence and Machine Learning, with a strong desire to explore the realm of AI and contribute to the development of critical AI security systems that enhance digital safety and ethical innovation.

Education	2024 – Present	Maseno University B.Sc. Information Systems
	2025 - Present	CS50 Harvard University Artificial Intelligence
	2024 - 2025	Simplilearn Skill Up Courses Attained: Machine Learning with Python
	2020 - 2023	Kenya Certificate of Secondary Education Attained: Grade B- (Minus) Muvuti School, Machakos
	2011 - 2019	Kenya Certificate of Primary Education Attained: Grade C+ (Plus) Edelvale Primary School, Nairobi

Skills	➤ Programming and Data Analysis: Average Proficiency in Python, Javascript, and SQL; capable of building and analyzing machine learning models. ➤ AI and ML Fundamentals: Understanding of supervised and Unsupervised learning, neural networks, and data preprocessing. ➤ Information Systems Management: Averagely Skilled in database design, System analysis, and process optimization. ➤ Soft Skills: Critical thinking, teamwork adaptability, and strong communication.				
Work Experience	<table><tr><td>2025</td><td>Machine Learning Challenge on Soil Measures, Online Bootcamp</td></tr><tr><td colspan="2"> Position: ML Participant Responsibilities: ➤ Built a predictive model to determine suitable crops based on soil mineral composition. ➤ Cleaned and preprocessed datasets containing soil params e.g Potassium, Phosphorus, Sodium, and pH levels. </td></tr></table>	2025	Machine Learning Challenge on Soil Measures, Online Bootcamp	Position: ML Participant Responsibilities: ➤ Built a predictive model to determine suitable crops based on soil mineral composition. ➤ Cleaned and preprocessed datasets containing soil params e.g Potassium, Phosphorus, Sodium, and pH levels.	
2025	Machine Learning Challenge on Soil Measures, Online Bootcamp				
Position: ML Participant Responsibilities: ➤ Built a predictive model to determine suitable crops based on soil mineral composition. ➤ Cleaned and preprocessed datasets containing soil params e.g Potassium, Phosphorus, Sodium, and pH levels.					

	➤ Applied Supervised learning algorithms using Python and Jupyter Notebook to train and Evaluate prediction accuracy. ➤ Visualized correlations between soil nutrients and crop suitability using Matplotlib and Seabon. Key Achievements: ➤ Developed a model that achieved high accuracy in predicting optimal plant types for given soil conditions.
	2024 - 2025 Analyzing Internet Global Patterns, Online Bootcamp Position: Analysis Responsibilities: ➤ Explored a dataset that highlights internet usage for different countries from 2000 2023. ➤ Imported, cleaned, analyzed and visualized the data using Jupyter Notebook. Key Achievements: ➤ End goal was a clean, self-explanatory, and interactive visualization ➤ Analyzed how internet usage has changed over time and the countries still widely impacted By lack of internet availability.
	February, 2024 – June, 2024 All Logistics Limited, Nairobi Position: Assistant Responsibilities: ➤ Supported daily logistics operations including documentation, inventory checks, and dispatch coordination. ➤ Assisted in tracking shipments and updating delivery records to ensure timely order fulfillment. Key Achievements: ➤ Contributed to improved record accuracy and smoother dispatch operations. ➤ Gained foundational understanding of logistics management and teamwork in a fast-paced environment.
Additional Information	Hobbies and Interests ➤ Travelling ➤ Reading the Bible ➤ Volunteering
